We are a pair of visual artists who works like one.
Our aim is to plant the seeds that will grow into a path to an imaginary world.
In each and everyone lies hidden dreams, waiting to emerge.

The Ink, the paper and the brush establish our story line, our path forward, through a single brush stroke.

« Work hard to open invisible doors »

Foldings, origami architecture, geometric origami, modular origami, suminagashis, katagamis, paper sculpture, sumi-e, suiboku-ga are our creations.
